On change of the active substance composition for the biocidal product

Latvian Environment, Geology and Meteorology Centre (LEGMC) has evaluated an application submitted by UAB "BS Chemical" on 30 October 2024 concerning a change of the active substance composition for the biocidal product "*BS Farmacip*" (Inventory number LV22082016/6539).

LEGMC confirms that active substance of the biocidal product "*BS Farmacip*":

- *glycolic acid* (CAS No. 79-14-1, EC No. 201-180-5) of 0,25 % concentration;

is allowed for use in the **Product Type 4**.

The biocidal product "*BS Farmacip*" meets the requirements of the Regulation No. 628 of the Cabinet of Ministers of the Republic of Latvia on requirements relating to the handling of biocidal products of 27 August 2013 (Regulation of the Cabinet of Ministers) and is allowed to be used as disinfectant in food and feed area (Product Type 4), according to the manufacturer's instructions.

The Inventory Number LV22082016/6539 is valid until above mentioned active substance is approved in accordance with requirements of Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products or until Commission adopts an implementing decision that above mentioned active substance is not approved, but not later than 31 December 2030.

LEGMC kindly ask to inform about any changes in information, which is submitted in accordance with requirements of Regulation of the Cabinet of Ministers.

Additionally, LEGMC would like to inform that UAB "BS Chemical" is fully responsible of the content of the biocidal product "*BS Farmacip*" as well as its classification, labelling, instruction of use and safety data sheet.

The Inventory Data Base will be updated accordingly.
