

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date	10th October 2016	Version	3
Revision date	25th November 2025		

SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1. Product identifier**
 Substance / mixture Sila Alkalis
 UFI mixture YTG0-T0TY-C00W-6DJQ
- 1.2. Relevant identified uses of the substance or mixture and uses advised against**
Mixture's intended use
 For professional use only. Liquid laundry detergent.
Main intended use
 PC-CLN-OTH Other cleaning, care and maintenance products (excludes biocidal products)
Mixture uses advised against
 The product should not be used in ways other than those referred in Section 1.
- 1.3. Details of the supplier of the safety data sheet**
Manufacturer
 Name or trade name UAB "BS Chemical"
 Address Briedžio g. 13, Kretinga
 Lithuania
 Phone +37066373748
 Email info@bs-chemical.lt
 Web address www.bs-chemical.com
Competent person responsible for the safety data sheet
 Name Beata Tumaš
 Email beata@bs-chemical.lt
- 1.4. Emergency telephone number**
 European emergency number: 112

SECTION 2: Hazards identification

- 2.1. Classification of the substance or mixture**
Classification of the mixture in accordance with Regulation (EC) No 1272/2008
 The mixture is classified as dangerous.
 Skin Corr. 1A, H314
 Eye Dam. 1, H318
 Aquatic Chronic 3, H412
Most serious adverse effects on human health and the environment
 Causes severe skin burns and eye damage. Harmful to aquatic life with long lasting effects.
- 2.2. Label elements**
Hazard pictogram

Signal word

Danger

Hazardous substances

 sodium hydroxide
 Nitrilotrimethylenetris(phosphonic acid)

Hazard statements

 H314 Causes severe skin burns and eye damage.
 H412 Harmful to aquatic life with long lasting effects.

Precautionary statements

 P260 Do not breathe mist/vapours/spray.
 P273 Avoid release to the environment.
 P280 Wear protective gloves/eye protection/face protection.
 P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date 10th October 2016 Version 3
Revision date 25th November 2025

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER/doctor.
P363 Wash contaminated clothing before reuse.
P501 Dispose of contents/container to in accordance with national regulations.

Supplemental information

<5 % phosphonates

2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended. Does not contain any PMT or vPvM components.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Chemical characterization

Mixture.

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

Identification numbers	Substance name	Content in % weight	Classification according to Regulation (EC) No 1272/2008	Note
Index: 011-002-00-6 CAS: 1310-73-2 EC: 215-185-5	sodium hydroxide	25-35	Skin Corr. 1A, H314 Specific concentration limit: Skin Corr. 1B, H314: $2 \% \leq C < 5 \%$ Skin Corr. 1A, H314: $C \geq 5 \%$ Eye Irrit. 2, H319: $0.5 \% \leq C < 2 \%$ Skin Irrit. 2, H315: $0.5 \% \leq C < 2 \%$	
CAS: 6419-19-8 EC: 229-146-5	Nitrilotrimethylenetris(phosphonic acid)	<5	Met. Corr. 1, H290 Skin Irrit. 2, H315 Eye Irrit. 2, H319	

Full text of all classifications and hazard statements is given in the section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet. If unconscious, put the person in the stabilized (recovery) position on his side with his head slightly bent backwards and make sure that airways are free; never induce vomiting. If the person vomits by himself, make sure that the vomit is not inhaled. In life threatening conditions first of all provide resuscitation of the affected person and ensure medical assistance. Respiratory arrest - provide artificial respiration immediately. Cardiac arrest - provide indirect cardiac massage immediately.

If inhaled

Terminate the exposure immediately; move the affected person to fresh air. In the event of issues, find medical advice.

If on skin

Beware of the contaminated clothes. Take off any rings, watches, bracelets before or during washing if worn in the contaminated areas of the skin. Rinse contaminated areas with a flow of water, lukewarm at best, for 10-30 minutes; do not use any brush, soap or neutralizers. Depending on the situation, call the medical rescue service and always ensure medical treatment.

Sila Alkalis

Creation date	10th October 2016	Version	3
Revision date	25th November 2025		

If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

If swallowed

DO NOT INDUCE VOMITING! Rinse out the mouth with water and provide 0.2-0.5 L of water. Call medical rescue service.

4.2. Most important symptoms and effects, both acute and delayed**If inhaled**

Inhaling vapours can cause corrosion of the breathing system.

If on skin

Causes severe skin burns.

If in eyes

Causes serious eye damage.

If swallowed

Corrosion of the digestion system can occur.

4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

SECTION 5: Firefighting measures**5.1. Extinguishing media****Suitable extinguishing media**

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

Unsuitable extinguishing media

Water - full jet.

5.2. Special hazards arising from the substance or mixture

The mixture releases a large amount of heat when in contact with water or moisture. The mixture reacts violently with acids. In a humid and warm environment, it reacts with some metals (tin, zinc, aluminium), resulting in the release of explosive hydrogen gas. When reacting with ammonium salts, ammonia is released, causing a fire hazard.

5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

SECTION 6: Accidental release measures**6.1. Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Do not inhale mist/vapours/spray. Prevent contact with skin and eyes.

6.2. Environmental precautions

Prevent contamination of the soil and entering surface or ground water. Do not allow to enter drains.

6.3. Methods and material for containment and cleaning up

Stop the leak if it is safe to do so. Using suitable tools, collect the spilled product into sealed plastic containers, avoiding contact with skin and eyes. Mix small quantities with non-combustible absorbent materials, such as sand or soil, and collect. Rinse the residue with a stream of water. If possible, neutralize the areas where the product was spilled using a solution of acetic acid with a concentration of up to 5%. Avoid using excessive amounts of the neutralizing solution.

6.4. Reference to other sections

See the Section 7, 8 and 13.

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date 10th October 2016 Version 3
Revision date 25th November 2025

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. Do not inhale mist/vapours/spray. Prevent contact with skin and eyes. Wash hands and exposed parts of the body thoroughly after handling. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Avoid release to the environment.

7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose.

Storage temperature -10...+35 °C

7.3. Specific end use(s)

not available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

The mixture contains substances for which occupational exposure limits are set.

DNEL

Nitrilotrimethylenetris(phosphonic acid)				
Workers / consumers	Route of exposure	Value	Effect	Source
Workers	Inhalation	9.7 mg/m ³	Chronic effects systemic	ECHA
Workers	Inhalation	9.7 mg/m ³	Acute effects systemic	ECHA
Consumers	Inhalation	2.39 mg/m ³	Chronic effects systemic	ECHA
Consumers	Inhalation	2.39 mg/m ³	Acute effects systemic	ECHA
Workers	Dermal	2.75 mg/kg bw/day	Chronic effects systemic	ECHA
Workers	Dermal	2.75 mg/kg bw/day	Acute effects systemic	ECHA
Consumers	Dermal	1.38 mg/kg bw/day	Chronic effects systemic	ECHA
Consumers	Dermal	1.38 mg/kg bw/day	Acute effects systemic	ECHA
Consumers	Oral	1.38 mg/kg bw/day	Chronic effects systemic	ECHA
Consumers	Oral	1.38 mg/kg bw/day	Acute effects systemic	ECHA

sodium hydroxide				
Workers / consumers	Route of exposure	Value	Effect	Source
Workers	Inhalation	1 mg/m ³	Chronic effects local	ECHA
Consumers	Inhalation	1 mg/m ³	Chronic effects local	ECHA

PNEC

Nitrilotrimethylenetris(phosphonic acid)		
Route of exposure	Value	Source
Freshwater environment	400-460 µg/l	ECHA
Marine water	40-46 µg/l	ECHA
Microorganisms in sewage treatment	20 mg/l	ECHA
Freshwater sediment	150-603 mg/kg of dry substance of sediment	ECHA
Sea sediments	15-60 mg/kg of dry substance of sediment	ECHA
Soil (agricultural)	4.73-244 mg/kg of dry substance of soil	ECHA
Food chain	170 mg/kg of food	ECHA

Sila Alkalis

Creation date	10th October 2016	Version	3
Revision date	25th November 2025		

8.2. Exposure controls

Take off contaminated clothing and wash before reuse. Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

Eye/face protection

EN ISO 16321-1 - Eye and face protection for occupational use.

Skin protection

EN ISO 374-1. Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. When selecting gloves, consider the properties of the product and the duration of exposure. Replace gloves at the first signs of wear or damage. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

Respiratory protection

EN 14387. Mask with a filter in a poorly ventilated environment.

Thermal hazard

Not available.

Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	liquid
Colour	colourless
color intensity	transparent
Odour	characteristic
Melting point/freezing point	data not available
Boiling point or initial boiling point and boiling range	data not available
Flammability	data not available
Lower and upper explosion limit	data not available
Flash point	data not available
Auto-ignition temperature	data not available
Decomposition temperature	data not available
pH	14 (100% solution at 20-25 °C)
Kinematic viscosity	data not available
Solubility in water	data not available
Partition coefficient n-octanol/water (log value)	data not available
Vapour pressure	data not available
Density and/or relative density	
Density	1.32-1.35 g/cm ³ at 20-25 °C
Relative vapour density	data not available
Particle characteristics	data not available

9.2. Other information

not available

SECTION 10: Stability and reactivity

10.1. Reactivity

Reacts violently with acids, forming salts (releases heat). Reacts with ammonium salts. Corrosive to light metals (tin, zinc, aluminum, brass), possible release of hydrogen, risk of explosion.

10.2. Chemical stability

The product is stable under normal conditions. When exposed to air, it reacts with carbon dioxide in the air, forming sodium carbonate.

10.3. Possibility of hazardous reactions

Reacts with light metals and acids (releases hydrogen, which poses an explosion hazard). Reacts with ammonium compounds, releasing ammonia.

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date 10th October 2016 Version 3
Revision date 25th November 2025

10.4. Conditions to avoid

Contact with air - turns into carbonates.

10.5. Incompatible materials

Light metals, acids, nitriles, ammonium compounds, cyanides, flammable organic materials, phenols and oxidizing agents.

10.6. Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide are formed at high temperature and in fire.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Hazardous substances in concentrations exceeding exposure limits may cause acute inhalation poisoning, depending on the concentration and duration of exposure.

Acute toxicity

Based on the available data, the criteria for classification of the mixture are not met.

Nitrilotrimethylenetris(phosphonic acid)						
Route of exposure	Parameter	Value	Exposure time	Species	Sex	Source
Oral	LD ₅₀	2910 mg/kg bw		Rat		ECHA
Oral	LD ₅₀	10 ml/kg bw		Rat		ECHA
Dermal	LD ₅₀	10 ml/kg bw		Rat		ECHA
Dermal	LD ₅₀	6310 mg/kg bw		Rabbit		ECHA

sodium hydroxide						
Route of exposure	Parameter	Value	Exposure time	Species	Sex	Source
Oral	LD ₅₀	325 mg/kg		Rabbit		SDL

Skin corrosion/irritation

Causes severe skin burns and eye damage.

Nitrilotrimethylenetris(phosphonic acid)				
Route of exposure	Result	Exposure time	Species	Source
Dermal	Irritating			ECHA

sodium hydroxide				
Route of exposure	Result	Exposure time	Species	Source
Dermal	Skin burns			ECHA

Serious eye damage/irritation

Causes serious eye damage.

Nitrilotrimethylenetris(phosphonic acid)				
Route of exposure	Result	Exposure time	Species	Source
Eye	Highly irritating			ECHA

sodium hydroxide				
Route of exposure	Result	Exposure time	Species	Source
Eye	Irreversible damage			ECHA

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date 10th October 2016 Version 3
Revision date 25th November 2025

Respiratory or skin sensitisation

Based on the available data, the criteria for classification of the mixture are not met.

Nitritotrimethylenetris(phosphonic acid)

Route of exposure	Result	Exposure time	Species	Sex	Source
Dermal	Not sensitizing				ECHA
Inhalation	Indeterminate				ECHA

sodium hydroxide

Route of exposure	Result	Exposure time	Species	Sex	Source
Dermal	Not sensitizing				ECHA
Inhalation	Indeterminate				

Germ cell mutagenicity

Based on the available data, the criteria for classification of the mixture are not met.

Nitritotrimethylenetris(phosphonic acid)

Result	Exposure time	Specific target organ	Species	Sex	Source
No effect					ECHA

sodium hydroxide

Result	Exposure time	Specific target organ	Species	Sex	Source
No effect					SDL

Carcinogenicity

Based on the available data, the criteria for classification of the mixture are not met.

Nitritotrimethylenetris(phosphonic acid)

Route of exposure	Parameter	Value	Result	Species	Sex	Source
	NOAEL	500 mg/kg bw/day		Rat		ECHA

sodium hydroxide

Route of exposure	Parameter	Value	Result	Species	Sex	Source
			No effect			SDL

Reproductive toxicity

Based on the available data, the criteria for classification of the mixture are not met.

Nitritotrimethylenetris(phosphonic acid)

Effect	Parameter	Value	Result	Species	Sex	Source
Effects on fertility	NOAEL	275 mg/kg bw/day	No effect	Rat		ECHA
Developmental toxicity	NOAEL	1000 mg/kg bw/day	No effect	Rat		ECHA

sodium hydroxide

Effect	Parameter	Value	Result	Species	Sex	Source
			No effect			SDL

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date 10th October 2016 Version 3
Revision date 25th November 2025

Toxicity for specific target organ - single exposure

Based on the available data, the criteria for classification of the mixture are not met.

Toxicity for specific target organ - repeated exposure

Based on the available data, the criteria for classification of the mixture are not met.

Nitrilotrimethylenetris(phosphonic acid)

Route of exposure	Parameter	Value	Result	Species	Sex	Source
Oral	NOAEL	500 mg/kg bw/day	No effect	Rat		ECHA

sodium hydroxide

Route of exposure	Parameter	Value	Result	Species	Sex	Source
			No effect			SDL

Aspiration hazard

Based on the available data, the criteria for classification of the mixture are not met.

11.2. Information on other hazards

Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption for humans.

Other information

not available

SECTION 12: Ecological information

12.1. Toxicity

Harmful to aquatic life with long lasting effects.

Acute toxicity

Nitrilotrimethylenetris(phosphonic acid)

Parameter	Value	Exposure time	Species	Environment	Source
LC ₅₀	150 mg/l	14 days	Fish		ECHA
LC ₅₀	160-1000 mg/l	4 days	Fish		ECHA
NOEC	47 mg/l	14 days	Fish		ECHA
EC ₅₀	297 mg/l	48 hours	Aquatic invertebrates		ECHA
EC ₅₀	545 mg/l	24 hours	Aquatic invertebrates		ECHA
LC ₅₀	94 mg/l	48 hours	Aquatic invertebrates		ECHA
NOEC	125 mg/l	48 hours	Aquatic invertebrates		ECHA
EC ₅₀	80 mg/l	72 hours	Algae		ECHA
NOEC	40 mg/l	72 hours	Algae		ECHA
LOEC	100 mg/l	72 hours	Algae		ECHA

Sila Alkalis

Creation date 10th October 2016 Version 3
Revision date 25th November 2025

Chronic toxicity

Nitrilotrimethylenetris(phosphonic acid)					
Parameter	Value	Exposure time	Species	Environment	Source
NOEC	23 mg/l	60 days	Fish		ECHA
LOEC	47.6 mg/l	60 days	Fish		ECHA
NOEC	25 mg/l	28 days	Aquatic invertebrates		ECHA

12.2. Persistence and degradability

The mixture is biodegradable.

Biodegradability

Nitrilotrimethylenetris(phosphonic acid)						
Parameter	Method	Value	Exposure time	Environment	Result	Source
	OECD 301D	22-23 %	28 days		Hardly biodegradable	SDL

sodium hydroxide						
Parameter	Method	Value	Exposure time	Environment	Result	Source
		-				

12.3. Bioaccumulative potential

Insignificant.

Nitrilotrimethylenetris(phosphonic acid)		
Parameter	Value	Source
BCF	22	SDL

sodium hydroxide		
Parameter	Value	Source
	-	

12.4. Mobility in soil

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PMT or vPvM components.

Nitrilotrimethylenetris(phosphonic acid)	
Parameter	Value
	-

sodium hydroxide	
Parameter	Value
	-

12.5. Results of PBT and vPvB assessment

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any PBT or vPvB components.

12.6. Endocrine disrupting properties

Based on the available data, the criteria for classification of the mixture are not met. Does not contain any components that may cause endocrine disruption in the environment.

Sila Alkalis

Creation date	10th October 2016	Version	3
Revision date	25th November 2025		

12.7. Other adverse effects

Disrupts the pH balance of water or soil. Short-term local effects. Damage to soil and aquatic ecosystems depends on the amount of product released, its dilution and the pH of the water. If released into wastewater treatment plants, it may pose a risk to biological wastewater treatment systems due to increased pH value.

SECTION 13: Disposal considerations
13.1. Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy.

Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

Waste type code

06 02 04* sodium and potassium hydroxide
 20 01 29* detergents containing hazardous substances
 15 01 10* packaging containing residues of or contaminated by hazardous substances
 (*) - Hazardous waste according to Directive 2008/98/EC on hazardous waste

SECTION 14: Transport information
14.1. UN number or ID number

UN 1824

14.2. UN proper shipping name

SODIUM HYDROXIDE SOLUTION

14.3. Transport hazard class(es)

8 Corrosive substances

14.4. Packing group

II

14.5. Environmental hazards

Yes.

14.6. Special precautions for user

Reference in the Sections 4 to 8.

14.7. Maritime transport in bulk according to IMO instruments

not relevant

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. REGULATION (EC) No 648/2004 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 on detergents, as amended. Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

15.2. Chemical safety assessment

not available

SECTION 16: Other information

A list of standard risk phrases used in the safety data sheet

H290	May be corrosive to metals.
H314	Causes severe skin burns and eye damage.
H315	Causes skin irritation.
H318	Causes serious eye damage.
H319	Causes serious eye irritation.
H412	Harmful to aquatic life with long lasting effects.

Guidelines for safe handling used in the safety data sheet

P260	Do not breathe mist/vapours/spray.
P273	Avoid release to the environment.
P280	Wear protective gloves/eye protection/face protection.
P301+P330+P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor.
P363	Wash contaminated clothing before reuse.
P501	Dispose of contents/container to in accordance with national regulations.

Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

Key to abbreviations and acronyms used in the safety data sheet

ADR	Agreement concerning the international carriage of dangerous goods by road
Aquatic Chronic	Hazardous to the aquatic environment (chronic)
BCF	Bioconcentration Factor
CAS	Chemical Abstracts Service
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures
EC	Identification code for each substance listed in EINECS
EC ₀	Concentration of a substance when it is affected 0 % of the population
EC ₅₀	Concentration of a substance when it is affected 50 % of the population
Eye Dam.	Serious eye damage
Eye Irrit.	Eye irritation
EINECS	European Inventory of Existing Commercial Chemical Substances
EmS	Emergency Response Procedures for Ships Carrying Dangerous Goods
EU	European Union
EuPCS	European Product Categorisation System
IATA	International Air Transport Association
IBC	International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals

SAFETY DATA SHEET

according to Commission Regulation (EU) 2020/878 as amended

Sila Alkalis

Creation date	10th October 2016	Version	3
Revision date	25th November 2025		

ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods
IMO	International Maritime Organization
INCI	International Nomenclature of Cosmetic Ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
LC ₅₀	Lethal concentration of a substance in which it can be expected death of 50% of the population
LD ₅₀	Lethal dose of a substance in which it can be expected death of 50% of the population
log Kow	Octanol-water partition coefficient
Met. Corr.	Corrosive to metals
NOAEL	No observed adverse effect level
NOEC	No observed effect concentration
OEL	Occupational Exposure Limits
PBT	Persistent, bioaccumulative and toxic
PMT	Persistent, mobile and toxic
ppm	Parts per million
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Regulation concerning the International Carriage of Dangerous Goods by Rail
Skin Corr.	Skin corrosion
Skin Irrit.	Skin irritation
UN number	Four-figure identification number of the substance or article taken from the UN Model Regulations
UVCB	Substances of unknown or variable composition, complex reaction products or biological materials
VOC	Volatile organic compounds
vPvB	Very persistent and very bioaccumulative
vPvM	Very persistent and very mobile

Training guidelines

Inform the personnel about the recommended ways of use, mandatory protective equipment, first aid and prohibited ways of handling the product.

Recommended restrictions of use

not available

Information about data sources used to compile the Safety Data Sheet

REGULATION (EC) No. 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH) as amended.
REGULATION (EC) No. 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL as amended. Data from the manufacturer of the substance / mixture, if available - information from registration dossiers.
