On change of the active substance for the biocidal product

Latvian Environment, Geology and Meteorology Centre (LEGMC) has evaluated an application submitted by UAB "BS Chemical" on 13 May 2022 concerning the change of the active substances for a biocidal product "Tulpe Detersan" (Inventory number LV22082016/6531)

LEGMC confirms that active substance of the biocidal product "Tulpe Detersan":

- *N*-(3-aminopropyl)-*N*-dodecylpropane- 1,3-diamine (Diamine) (CAS No. 2372-82-9, EC No. 219-145-8) of 4,00% concentration,

is allowed for use in the Product Type 2 and 4.

The biocidal product "Tulpe Detersan" meets the requirements of the Regulation No. 628 of the Cabinet of Ministers of the Republic of Latvia on requirements relating to the handling of biocidal products of 27 August 2013 (Regulation of the Cabinet of Ministers) and is allowed to be used as disinfectant and algaeicide not intended for direct application to humans or animals (Product Type 2) and as disinfectant in food and feed area (Product Type 4), according to the manufacturer's instructions.

The inventory number LV22082016/6531 is valid until above mentioned active substance is approved in accordance with requirements of Regulation (EU) No 528/2012 of the European Parliament and of the Council of 22 May 2012 concerning the making available on the market and use of biocidal products or until Commission adopts an implementing decision that active substances are not approved, but not later than 31 December 2024.

The Inventory Data Base will be updated accordingly.
